

Keepers of the Athabasca

“Flowing into Right Relationship” Workshops Since Truth comes before Reconciliation

Community Climate Action For Schools (1 hour): surveying current climate science, the difference between climate and weather, emergency preparedness, and energy efficiency and solar programs. **For Adults(1.5—2 hrs):** Includes the above, and also sharing methods for designing a solar installation, along with preparing, distributing, and evaluating solar Requests for Proposals. Keepers of the Athabasca can follow up and assist workshop participants to plan and contract your new solar installation in Northern Alberta.

Keepers of the Athabasca can follow up and assist workshop participants to plan and contract your new solar installation in Northern Alberta.

The KAIROS “Blanket Exercise” (1/2 Day): For groups of at least 20, this powerful interactive exercise educates participants about the history since European contact of Indigenous peoples in Canada.

Exploring the Treaties: reviewing the appropriate Treaty for each workshop’s location, while inviting discussion on historic and modern perspectives, how this Treaty has been and could be upheld.

United Nations Declaration on the Rights of Indigenous Peoples: comparing the principles in UNDRIP to the UN’s sustainable development goals, workshop participants learn about Canada’s history and current challenges with this document. Booklets are included.

Indigenous Water Governance: exploring pre-contact understandings about water and current paradigms

while asking the question; can there be an Indigenous Water Governance model for Canada?

Circle of Water This talking and listening circle provides a venue for communities to discuss watershed questions or issues that they are concerned about. Notes will be compiled into a ‘Circle of Water’ report back to the communities.

Where’s My Power Examining what power and energy are, the many natural and human made sources of energy and their effects, climate change and energy efficiency. Making the connection between power and human agency—we have the power to create energy!
