

Where's My Power:

(1 hour): for schools

- What is power?
- What is energy? Needs and wants
- How do humans create energy?
- Different forms of energy and their effects around us
- Energy efficiency, Climate change, and emergency preparedness
- Energy audit tools

Our facilitators are available to help groups and individuals design and install solar

Where's My Power (2 hours): for adults includes above plus;

- Reviewing Energy Efficiency programs and their results in Alberta
- True cost accounting principles
- Indigenous perspective
- Solar request for proposals: form, examples, distribution, evaluation

Keepers of the Athabasca:

We are glad to help your school, School Board, community group, First Nation, Métis Settlement church, or club learn more about energy efficiency, tools for an energy audit, climate change, Indigenous perspective, emergency preparedness, true cost accounting and relationships between energy production and human agency.

Please contact us to book a workshop:

Coordinator:

Joseph Large 780 614-0059
